DETAILED ACTION

EXAMINER'S AMENDMENT

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
2. The title has been changed to "Liquid Crystal Display Device with a Light Diffusion Layer in the Reflection Region Alone".

Allowable Subject Matter

3. Claim 1, 4-14 and 21-33 are allowed.
4. The following is an examiner's statement of reasons for allowance:

A search of the prior art does not teach or suggest a liquid crystal display comprising a combination of structural elements, more specifically:

(a) The second substrate of the liquid crystal device includes the light diffusion layer in the reflection region alone, as recited in independent claims 1 and 33.

(b) The thickness of the liquid crystal layer in the reflection region is about $\frac{1}{2}$ of a thickness of the liquid crystal layer in the transmission region, as recited in independent claim 21.

The allowability of the above limitations was indicated in the previous office action, if they are rewritten in independent form including all the limitations of the base claim and any intervening claims. The applicant has cancelled claim 3 and incorporated the limitation in claims 1 and 33.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
